

FULLTIME

# QA/TEST ENGINEER

## ENSURE QUALITY AND EXCELLENCE IN OUR MEDICAL APP AS QA/TEST ENGINEER

We are looking for a QA/Test Engineer passionate about making us deliver a quality product on time.

### YOU WILL...

- work directly with the product & development team on requirement specifications.
- test code at the user level, both manually and with automated tools.
- identify, and track bugs throughout testing.
- track the testing progress in our QA-system.
- work closely with technical as well as non-technical stakeholders by engaging in discussions, but also nailing down tasks in written form.

**RESPONSIBILITY.** You are responsible for making sure that we deliver a medical app that meets and exceeds the highest standards. Furthermore, you will track errors, automate testing and make sure we stick to our release cycles.

**FLEXIBILITY.** We don't keep track of hours – we just care about your motivation and passion.

**WORK HARD PLAY HARD.** Mario Kart and NERF Gun battles are great to fill up energy and of course, you will take part in the team battles! Furthermore, you will get the chance to join us for relevant startup events.

SMOKELESS

### TECHNOLOGY THAT CHANGES THE WORLD

Every 5 seconds one person dies from the consequences of smoking. That sums up to over 6 million people a year that will leave this planet.

We, the 3 founders, share the passion and the vision to use newest technology to change the face of the world. That's why we have founded Smokeless – a totally new and disrupting solution that will revolutionize the medical sector.

Smokeless is the first solution worldwide that based on smart technology can conquer smoking addiction. Our solution consists of a cool hardware- as well as a software part in form of an app.

We are supported by leading medical device companies, well-known investors and renowned addiction experts.

Come and join us to change the world.
